HOW TO Use Internet Resources to Enhance Your Store

Introduction

Some web sites provide data (images or code) for you to download and use for free. While some sites ask you to credit the artwork & provide a link to their site, while other sites have different policies for commercial and non-commercial use. Still others web sites offer their graphics for sale. So, it's a good idea to read the Terms and Conditions or Copyright sections of the sites.

The following is a sample of web sites we have collected that you might find useful to gain additional information, codes, images, or other data. Each site name is linked to its URL, so if you are connected to the internet, simply click the URL. These sites were active at the time of this publication. We've categorized the list into the following areas:

- [Web Design](#)
- [HTML](#)
- [Cascading Style Sheets](#)
- [Graphics](#)
- [Textures and Backgrounds](#)
- [Clipart](#)

In addition to these sites, check the Galleria at the Miva Corporation web site, which provides links to stores that use Miva Merchant: <http://www.miva.com/galleria>.
